

## NUTEK AT GmbH Is hiring.

### Mechanical Engineer

- We are an innovative startup company.
- Field of Operation: Medical Device
- Working in close cooperation with the Medical University of Graz (MUG)
- Located at the Center of Knowledge and Technology Transfer in Medicine (ZWT)  
A vibrant Eco-System of medical oriented startups, companies, and research centers in Graz.
  
- We develop the “Rainbow-Probe”, a novel medical device which will support the surgeon in real-time, during operation, to completely remove cancer tumors.
- If you are looking for a meaningful project which will affect people’s life, join us and be part of a multi-disciplinary development team.
- Position is on a Full-Time Basis and open for both female and male candidates.
  
- **Tasks description:**
  - Mechanical Engineering design activities in cross-functional hardware team (Optical and Electronic design)
  - Work across the full product development cycle.
  
- **Required:**
  - Bachelor or master’s degree in mechanical engineering
  - Proficiency in 3D design modeling (SolidWorks)
  - EU Citizenship
  
- **Nice to have:**
  - Experience in opto-mechanical design and engineering
  - Knowledge of manufacturing techniques.
  
- **Contact & send CV:**
  - Esther Mayer – Managing Director
